Easy Technology for the Propane
& Heating Oil Industries

digitalsoftwareservices.net/orderfuel

Real-time visibility of all orders
and quotes.

What it does:

- Customizable with your logo.** Be the first not the last in your market area to use the Apple and Google play stores to direct new customers to you.
- Make it easy for your customers to order fuel from anywhere** so they are not tethered to wired computers or wireless signals to do so (hmmm making it easy for them to order is a good thing right?)
- Helps your prospects connect with you too...**yes it collects emails & cell phone numbers and allows you push message your customers AND prospects.
- "Click..Done" More Sales in less time.**
